# Nababur Rahaman

## Full Stack Web Developer

🔗 www.nababur.com       ✉ nababurdev@gmail.com       🔗 YouTube Channel

I am a skilled web developer specializing in PHP, WordPress, Laravel, React, JavaScript, and Tailwind CSS. With expertise in both front-end and back-end development, I thrive in the dynamic and ever-evolving web industry. I leverage PHP and Laravel to build robust web applications, while utilizing JavaScript and React to create interactive user interfaces. My proficiency in Tailwind CSS ensures responsive and visually appealing designs. With a passion for continuous learning, I stay updated with the latest technologies, enabling me to deliver innovative solutions in today's fast-paced web development landscape.

## Experience

**Loop Software - www.loop.software**                                    Jan 2022 - Nov 2023
Web Developer (WordPress)

As a skilled WordPress developer at Loop Software, I've honed my expertise in creating captivating websites that seamlessly blend aesthetics and functionality. Through the implementation of custom themes, plugins, and optimization techniques, I've consistently delivered exceptional results for diverse client projects. It's been a rewarding journey contributing to the growth and success of Loop Software's web development endeavors.

---

**GridTemplate - www.gridtemplate.com**                                    Jan 2021 - Present
Web Designer

As a web designer and CEO at GridTemplate, I specialize in creating HTML5 and Bootstrap themes that elevate the visual appeal of websites. With a keen focus on modern design trends and user experience, I strive to deliver visually impressive and highly functional themes that enhance the online presence of our clients.

---

**Marketplace**                                    Jan 2017 - Current
Web Developer and Designer

With a wealth of experience in popular freelance marketplaces like Freelancer, Upwork, PeoplePerHour, Fiverr, and ThemeForest, I am a seasoned web developer specializing in WordPress, PHP, Laravel, jQuery, React, and Vue. My passion lies in crafting dynamic and responsive websites that exceed client expectations. From customizing themes to building complex functionalities, I am adept at delivering high-quality solutions that elevate user experiences. Let's collaborate and bring your digital visions to reality.

We have had the pleasure of working with Nababur for the past 18 months. During his time as one of our contract web developers, Nababur developed his HTML, CSS and Javascript, WordPress skills to a good level and is a dependable and hard working individual. Thank you Nab, for all you have done - and the very best in the future.
